Head lice myth buster	
Myth or truth?	State of hair
Myth	Prefer clean hair
Truth	Infect both clean and dirty hair
	Length of hair
Myth	Prefer long hair
Truth	Infect all lengths and types of hair
	Spread of lice
Myth	Jump and can spread via clothes/towels
Truth	Walk from head to head
	Ritchy scalp?
Myth	Always means itchy scalp
Truth	Only itches if allergic to lice/lice/faeces

May I stress the importance of weekly hair checks of all your family's hair as inspection will lead to quick detection and treat those who have signs of head lice. Anyone can catch head lice - by head to head contact and in the cleanest of hair.

### Eco Friendly Easter Competition

We are running an exciting

'Easter Competition' with prizes for all year groups donated by the PTA. Alongside this our teacher supply agency will also choose a winner from across their associated schools, with £250 Amazon vouchers for the winning school and £25 for the pupil.

All you have to do is make (with a little help from parents if needed) an Easter Decoration from recyclable items. Good Luck!
